

TORNADO AT NUNDA VALLEY.—A tornado swept through Nunda Valley on Saturday afternoon last, which has done much damage. It seemed to have originated from the meeting of two clouds in the valley, and swept down the creek, is the northeast; moving houses and barns, and prostrating sheds, fences, trees, and every thing in its course. Large quantities of timber have been blown down, and much damage done to the fences, &c. One singular freak and narrow escape is worthy of special notice. A house, in which a family named Mason resided, was lifted over their heads and carried away, leaving the family exposed, but uninjured, on the first floor. The main current of air is said to have been from 50 rods to half a mile wide. It was reported, before our informant left Nunda, that much damage was also done by the tornado in its course at Groveland. It then turned to a severe hail storm, and broke down the wheat, and injured sheep, cattle, &c.
